

# Ceramic Fun 3

We did it again!!!! Another great day of Education, Sharing, Friendship and above all FUN.

Arlene did a presentation to our "STAR" of the day.

The Southern Stars Chapter gave Dean his own "Oscar" and voted him the Super Star of the day. They made him his own hat to wear that had stars with the words "I love to create". With out Dean and his continued support of our Ceramic Fun Retreat, we would not be able to keep the cost down as we do. THANKS DEAN.

We want to thank our volunteer instructors for some great projects. We started the day with Arlene teaching us to work with Cover Coats, Satin Glaze, Concepts, French Dimensions and to top it off Glass Frit. And would you believe all on the same piece.

Next was Cindy Johnson, one of our newer members. Cindy taught us how to decorate the blossom plate, using Concepts and 3 different crystals.

Then last but not least, our very own Dru Woodward, all the way from Florida, taught us a really cute kids Finger Print project. I must say our CDT's are really good at finger painting.

Included during the event were several great tips, shares and show and tells. Were else can you get all that education in one day.

We'll believe it or not, we are already planning for 2011. We have set the date January 21st., same time, same place and hopefully we will see the same faces back again, plus we hope some new one too!!! Till then keep on painting and having FUN.
